

How You Can Help Make Tacoma Better

- Send us a an email stating your opposition to Sound Transits berm plan. We'll use it as support material when talking with our public officials.
- Download the Signature Petition, print it and have your friends and colleagues sign it, and be sure to return it to us.
- Send email to members of the Tacoma City Council, tell them to demand Sound Transit use a Post and Beam option through the Dome District.
- Send email to members of the Sound Transit Board, and other public officials let them know about your concerns with this project.
- If you're a member of a community group or environmental group please mention the project at the next two meetings. Ask them to send us a letter of support. The written text on the Signature Petition is a good starting point.
- Invite everyone on your email mailing list to visit our blog so they can learn more about the project and issues: <http://doitrighttacoma.blogspot.com>
- If you have a Facebook or MySpace page, please mention the project and let others know about it and the blog, and how they can become involved.
- Attend any Sound Transit or City of Tacoma meeting about the Project. We usually post them on the blog as soon as we hear about them.
- Join and read the information about the Transforming the Dome District on the Community Stewards website: <http://communitystewards.org>
- If you have other ideas on how to help, let us know, we need your support.
